- Postman

EDUCATION

HIGHER SECONDARY

IMNSGHSS Mayyil 2016 - 2018

PROFILE

Experienced full-stack developer, proficient in MERN (MongoDB, Express.js, React.js, Node.js) and Django. Skilled in building scalable applications with a focus on clean, maintainable code. Expertise in RESTful APIs, efficient state management with Redux toolkit, and Git version control. Passionate about problem-solving and staying updated with the latest technologies. Collaborative team player dedicated to building innovative and user-friendly applications

Work Experience

2023 | Present

Full Stack Developer | TiQR Labs pvt ltd

Currently working at TiqrLabs, an event management company, where I develop and maintain the platform. My role includes implementing new features and optimizing performance, providing valuable full-stack development experience.

2022 - 2023

MERN Stack Developer [Internship] | Brototype

Collaborate with senior developers to design and implement user interfaces using React.js,
Assist in developing and maintaining server-side logic using Node.js and Express.js, including handling requests, managing sessions, and integrating APIs.

PROJECTS

TIQR EVENTS - Event Management

- Developed a fully functional web app for Manage registrations and tickets to events.
- Developed features for generating and sending event tickets via email.

BUGFIXER - Microblog Website

- Developed a fully functional web app with Chat section using the MERN stack and Socket.IO.
- Managed states using redux and redux-toolkit to have clean code and good user experience.
- Implement comprehensive admin and user side features.

Ecommerce - Multivendor Website

- Developed a multivendor ecommerce platform using the MERN stack.
- Implemented user roles for admin, staff, and store owners.

Review App- Reviewing Website

- Developed a review app using Next.js for the frontend and Firebase for the backend.
- Utilized Firestore, a NoSQL database by Firebase, for storing and managing review data.
