GITHUB

PERSONAL PROJECTS

SRC – Southern Regional Conference Website
- Developed and deployed the official website for Southern Regional Conference, including event details, speaker profiles, and schedules. Implemented a custom registration system with dynamic forms and validations. Integrated Omniware for secure and seamless payment processing.

BugFixer – Developer Q&A Platform (Like Stack Overflow)
- Developed BugFixer, a Q&A platform for developers to ask, answer, and discuss technical issues. Implemented features like question posting, answer threads, upvotes/downvotes, comments, and tags. Used Redux Toolkit for efficient state management and real-time UI updates.

Business Review System
- Built a review and rating system for businesses, allowing users to submit feedback with ratings and comments. Integrated Firebase Authentication for secure login/signup and user management. Stored and managed review data in Cloud Firestore, enabling real-time updates. Designed an intuitive, responsive UI using Tailwind CSS, optimized for all devices.

EDUCATION

Full Stack Web Development Program
